EDUCATION & AWARDS

Lebanese University – *MIS*

TECHNICAL SKILLS

HTML – CSS – JavaScript – Typescript – ReactJs– NextJs – TailwindCSS – Redux – Git – NodeJs – ExpressJs – NestJs – MongoDB – PostgreSQL – Microservices Architecture

WORK EXPERIENCE

Skew – Full-Stack Developer   **4/2024—Present**

- **Developed** robust back-end systems using **NestJS**, ensuring efficient and scalable server-side applications.
- **Utilized Docker** for containerization, streamlining project deployment and management.
- **Managed data** with **PostgreSQL** and **TypeORM**, ensuring reliable and efficient database operations.
- **Implemented Kafka** for background processing, enhancing the performance of microservices in a distributed architecture.
- Applied **event-driven patterns** to enable smooth communication between microservices.
- Continued contributing to front-end development, maintaining a full-stack perspective.

Skew – Front-end Developer   **9/2023 — 4/2024**

- **Developed** and maintained front-end features using Next.js, ensuring seamless user experiences.
- **Managed state** efficiently with Redux, optimizing the data flow across the application.
- **Integrated APIs** using **RTK (Redux Toolkit)**, improving data handling and performance.
- **Enhanced page performance by 15-20%**, leading to faster load times and a smoother user experience.

Experts Bot – Frontend-Developer Intern   **4/2023 — 9/2023**

- Developed **responsive UI** components using **ReactJS** and **Tailwind CSS**.
- **Collaborated** with the team to align front-end work with project goals.
- **Ensured design consistency** and attention to detail in all tasks.
- **Solved challenges** and contributed to delivering a polished product.

PROJECTS

Dawrat   **11/2023—Present**

- Developed a **website** using **Next.js** for both the **frontend** and **backend**.
- Utilized **Next.js API routes** for backend services and **MongoDB** for database management.
- Designed and styled the user interface with **Tailwind CSS** and **MUI**.
- http://dawrat-leb.com/

Codestream   **10/2022—1/2023**

- Created and hosted a course website for learning **MERN stack** development
- Employed the same **Next.js** and **MongoDB** stack as Dawrat, ensuring consistency and reliability.
- Implemented a **subscription plan** for users, providing access to exclusive content.
